Suitable Extinguishing Media	Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.
Unsuitable Extinguishing Media	None
Hazardous Combustion Products	None
Specific Hazards Arising from the Chemical	May cause allergic respiratory reaction.
Protective Equipment and Precautions for Firefighter	rs Self-contained breathing apparatus and standard turn-out apparel.

SECTION 6: Accidental release measures

Personal Precautions	For personal protection see section 8.
Environmental Precautions	Collect spillage.
Methods for cleaning up	Avoid formation of dust and aerosols. Spilled preparation should be removed immediately to avoid formation of dust from dried preparation. Take up by mechanical means preferably by a vacuum cleaner equipped with a HEPA (High Efficiency Particulate Air) filter. Flush remainder carefully with plenty of water. Avoid splashing, high pressure washing or compressed air cleaning to avoid formation of aerosols. Ensuresufficient ventilation. Wash contaminated clothing.

For personal protection see section 8

SECTION 7: Handling and storage

Handling	Avoid formation of dust and aerosols. Ensure adequate ventilation Liquid enzyme preparations are dust free preparations. However, inappropriate handling may cause formation of dust or aerosols.
Storage	Keep tightly closed in a dry and cool place. Temperature 0-25°C (32-77°F)
Storage Conditions	In unbroken packaging - dry and protect from the sun. The product has been formulated for optimal stability. Extended storage or adverse conditions such as higher temperatures or higher humidity may lead to a higher dosage requirement
