

Safety Data Sheet

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Product Name: Strive EX

Chemical Name: Enzyme preparation

Declared activity: Glucoamylase (glucan 1,4-alpha-glucosidase)

Recommended Use: Saccharification of dextrin used in production of dextrose, starch

based syrups, ethanol fermentation

Company Identification: CTE Global, Inc.

630 Dundee Road, Suite 440

Northbrook, IL 60062

Emergency telephone number: 847-564-5770

SECTION 2: Hazards identification

Classification: Classification of the chemical in accordance with 29CFR §1910.1200

Respiratory sensitization Category 1

Label elements

GHS-US labeling

Hazard pictograms (GHS-US):

Signal word (GHS-US): Danger

Hazard statements

H334 - May cause allergy or asthma symptoms or breathing difficulties if inhaled

Precautionary Statements - Prevention

P261 - Avoid breathing dust/fume/gas/mist/vapors/spray

P285 - In case of inadequate ventilation wear respiratory protection

Precautionary Statements - Response

P304 + P340 - IF INHALED: Remove person to fresh air and keep comfortable for breathing

P342 + P311 - If experiencing respiratory symptoms: Call a POISON CENTRE or doctor/physician

SECTION 3: Composition/information on ingredients

Chemical Name	CAS-No	IUB No.	Weight %
Glucoamylase (glucan	9032-08-0	3.2.1.3	10-20
1,4-alpha-glucosidase) (aep)			
Trehalase, alpha,alpha-(aep)	9025-52-9	3.2.1.28	0.1-<1

aep (active enzyme protein) contributes to the GHS classification.

SECTION 4: First aid measures

In case of unintended overexposure, the following measures apply

Inhalation

Effects May cause allergic respiratory reaction **Symptoms** Shortness of breath, wheezing and coughing.

The effect of inhalation may be delayed

First Aid Remove person to fresh air. If signs/symptoms continue, get medical

attention.

Show this safety data sheet to the doctor in attendance

Skin Contact

Effects May cause slight irritation.

Symptoms Slight irritation.

First Aid Remove and wash contaminated clothing before re-use. Wash off

immediately with plenty of water. If symptoms persist, call a doctor. Show

this safety data sheet to the doctor in attendance.

Eye Contact

Effects May cause slight irritation.

Symptoms Slight irritation

First Aid Hold eye open and rinse slowly and gently with water for 15-20 min.

Remove contact lenses, if present, after the first five minutes, then continue rinsing eye. If symptoms persist, call a doctor. Show this safety

data sheet to the doctor in attendance.

Ingestion

Effects Ingestion may cause gastrointestinal irritation, nausea, vomiting and

diarrhea.

Symptoms Irritation

First Aid Rinse mouth with water and drink plenty of water. If symptoms

^{*} The exact percentage (concentration) of composition has been withheld as a trade secret

persist, call a doctor. Show this safety data sheet to the doctor in attendance.

SECTION 5: Firefighting measures

Flammable Properties Slightly flammable according to HMIS criteria.

Suitable Extinguishing Media Use water spray, alcohol-resistant foam, dry

chemical or carbon dioxide.

Unsuitable Extinguishing Media None

Hazardous Combustion Products None

Specific Hazards Arising from the ChemicalMay cause allergic respiratory reaction.

Protective Equipment and Precautions for Firefighters Self-contained breathing apparatus and standard

turn-out apparel.

SECTION 6: Accidental release measures

Personal Precautions For personal protection see section 8.

Environmental Precautions Collect spillage.

Methods for cleaning up Avoid formation of dust and aerosols.

Spilled preparation should be removed immediately to avoid formation of dust from dried preparation. Take up by mechanical means preferably by a vacuum cleaner equipped with a HEPA (High Efficiency Particulate Air) filter. Flush remainder carefully with plenty of water. Avoid splashing, high pressure washing or compressed air cleaning to avoid formation of aerosols.

Ensuresufficient ventilation. Wash contaminated clothing.

For personal protection see section 8

SECTION 7: Handling and storage

Handling Avoid formation of dust and aerosols.

Ensure adequate ventilation

Liquid enzyme preparations are dustfree preparations. However,

inappropriate handling may cause formation of dust or aerosols.

Storage Keep tightly closed in a dry and cool place. Temperature 0-25°C (32-77°F)

Storage Conditions In unbroken packaging - dry and protect from the sun. The product has been

formulated for optimal stability. Extended storage or adverse conditions such as higher temperatures or higher humidity may lead to a higher dosage

requirement

SECTION 8: Exposure controls/personal protection

Chemical Name	DNEL Dermal Acute Local (Workers)	DMEL Inhalation Long term Local (Workers)
Glucoamylase (glucan 1,4-alpha-glucosidase) (aep)		DMEL = 60 ng/m ³
Trehalase, alpha,alpha-(aep)		DMEL = 60 ng/m ³

Derived No Effect Level (DNEL)

Derived Minimal Effect Level (DMEL))

Occupational exposure controls

Engineering Controls Ensure adequate ventilation, especially in confined areas.

Maintain good conditions of industrial hygiene. Some processes may require enclosures, local exhaust ventilation, or other engineering controls

to control airborne levels. Additional handling and healthy/safety

information is available upon request

Personal Protective Equipment

Respiratory Protection In case of insufficient ventilation wear suitable respiratory equipment that

meets HEPA/P100 specifications.

Eye Protection Safety glasses with side-shields

Skin and body protectionNo special technical protective measures are necessary

General Hygiene Considerations Handle in accordance with good industrial hygiene and safety practices.

Environmental exposure controls Local authorities should be advised if significant spillages cannot be

contained

SECTION 9: Physical and chemical properties

Information on basic physical and chemical properties

Appearance: Milky, Light to dark brown liquid

Odor: Slight fermentation odor

pH: Adjusted to the range where active enzyme is stable-typically pH 4-9

Density: 1.15 g/mL

Solubility: Active component is readily soluble in application-relevant solutions

at all levels of concentration, temperature and pH which may occur

in normal usage

Boiling Point:

Flash Point:

Not determined

No data available

Partition Coefficient:

No data available

(n-octanol/water)

Other information: No information available

SECTION 10: Stability and reactivity

Reactivity Not relevant

Chemical stability Stable under recommended storage conditions

Possibility of hazardous reactions None under normal processing

Conditions to Avoid None

Incompatible materials None

Hazardous Decomposition Products None

SECTION 11: Toxicological information

Information on toxicological effects

Repeated inhalation of enzyme dust or aerosols resulting from improper handling may induce sensitization and may cause allergic type 1 reactions in sensitized individuals

Mild skin irritation

Mild eye irritation

Ingestion may cause gastrointestinal irritation, nausea, vomiting and diarrhea

				Serious eye
	toxicity	toxicity		damage /eye irritation
Glucoamylase (glucan 1,4-	LD50: > 2000 mg/kg bw	-	Not irritating (OECD TG 404)	
alpha-glucosidase) (aep)	(OECD TG 401, 420)			

Trehalase, alpha,alpha-(aep)	LD50: >2000 mg/kg bw (OECD TG 401,420)	-	Not irritating (OECD TG 404)	Not irritation (OECD TG 405)
Chemical Name	Specific target organ toxicity	Genetic toxicity	Skin sensitization	Respiratory sensitization
Glucoamylase (glucan 1,4- alpha-glucosidase) (aep)		No indication of mutagenic effects (OECD TG 471,476, 487)		Sensitizer (Human experience)
Trehalase,alpha,alpha-(aep)		No indication of mutagenic effects (OECD TG 471,476)		Sensitizer (Human experience)

SECTION 12: Ecological information

Toxicity

Chemical Name	Daphnia, acute	Algae, acute	Fish, acute
Glucoamylase (glucan 1,4-alpha-	EC50 (48 hours): 31.7 -457 mg	ErC50 (72 hours): >5.2 mg	LC50 (96 hours): 58.3 – 326.7 mg aep/l
glucosidase) (aep)	aep/l (OECD TG 202)	aep/l (OECD TG 201)	(OECD TG 203)
Trehalase, alpha, alpha-(aep)	No data available	-	No data available

Persistence/Degradability

Chemical Name	Persistence and degradability	Partition coefficient (n-octanol/water)
Glucoamylase (glucan 1,4-alpha-glucosidase) (aep)	Readily biodegradable (OECD 301)	LogPow: <0
Trehalase, alpha, alpha-(aep)	Readily biodegradable (OECD 301E/F)	LogPow: <0

Mobility in soil Not relevant

Other adverse effects No information available

SECTION 13: Disposal considerations

Disposal of wastes Dispose of in accordance with local regulations.

www.cte-global.com

Contaminated Packaging Dispose of wastes in an approved waste disposal facility

SECTION 14: Transport information

Transport Regulations

No dangerous goods according to transport

regulations

No special precautions required

Transport hazard class(es) not applicable

Packing group not applicable

Environmental hazards not applicable

SECTION 15: Regulatory information

USA, Federal Regulations

TSCA InventoryThe active ingredient and all components of the enzyme preparation are

Listed on the TSCA inventory

SARA 313

Section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 (SARA). This product does not contain any chemicals which are subject to the reporting requirements of the Act and 40 CFR Part 372.

SARA 311/312 Hazardous Categorization

Acute Health Hazard	No
Chronic Health Hazard	No
Fire Hazard	No
Sudden Release of Pressure Hazard	No
Reactive Hazard	No

USA, State Regulations

 California Proposition 65
 This product does not contain any Proposition 65 chemicals

Canada

WHMIS Hazard Class Controlled product hazard class D2 A (respiratory sensitizer)

WHMIS Statement This product has been classified in accordance with the hazard criteria of the

Hazardous Products Regulations (HPR) and the SDS contains all the

information required by WHMIS 2015.

SECTION 16: Other information

Indication of changes: 5/06/2020

GHS-Classification The GHS calculation method has been used for classification of this mixture

Disclaimer The information provided on this SDS is correct to the best of our knowledge,

information and belief at the date of its publication. The information given is

designed only as a guide for safe handling, use, processing, storage, transportation,

disposal and release and is not to be considered as a warranty or quality

specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other material or in any process, unless specified in the text. Furthermore, as the conditions of use are beyond the control of CTE Global, Inc., it is the responsibility of the customer to

determine the conditions of safe use of these products.
